

## Consumer Alert

Homeowners considering hiring any of the following companies to undertake renovations on their home should be aware that contrary to representations that may be made by them, they are **NOT** current members of the Building Industry and Land Development Association (BILD) formerly known as Greater Toronto Home Builders' Association – Urban Development Institute (GTHBA-UDI).

The association has communicated with each of the listed companies asking them to remove references and logo images for BILD and/or RenoMark logos from promotional materials and/or web sites. The BILD, GTHBA-UDI and RenoMark logos are well established symbols of renovation professionalism to consumers, and the fact that these companies would blatantly mislead the public is of great concern to the Association and its professional renovator members.

All BILD RenoMark™ contractors undertake to uphold our 10-point renovation-specific Code of Conduct, over and above the 9-point Code of Ethics. BILD members attend regular information forums and have access to renovation training and education opportunities offered through the Association.
